Should go out today. Once the letters are in the mail, I'll send PDFs to each of the parties via e-mail.
Good chance we'll hear back from the Respondents sometime this week. Aaron

Amy Miller has signed a revised version of the cover letter that will accompany the proposed order to the respondents. The proposed order was revised per Amy Miller's suggestion. After some research into the matter, we decided to stick with "Pine View" instead of "Pineview" because the

former is how the system is referred to in the land title records and is the most correct (from a legal perspective at least) way to refer to this system going forward. I make reference to the different ways in which this system has been referred to in a new footnote in the proposed order.

Next steps: Once the proposed order and attachments are ready, we will date stamp the letter, file the original with the regional hearing clerk, and provide copies of the letter to respondents via hardcopy and email where possible. We anticipate filing tomorrow. We should also very soon post the 30-day public notice of the proposed order on our website.

Here is the latest letter and proposed order.

While I was out, did a revised version of the Pine View UIC Order come thru/get processed?
I vaguely recall there was a question as to whether it should read as "Pine View" or as one word;
